1. [ ] Comment. According to number and type of guns, as well as motor vehicle elements of the 3d Gds AT Brig of the IV Arty Corps from Rostock in the strength of a AT regiment are quite definitely believed to have been transferred to Letzling Heath on 18 August and to have returned in 2 shipments on 25 and 28 August.

2. [ ] Comment. The composition of this shipment does not correspond to the usual tank firing details mentioned in paragraph 3 of the report. The loading of T-34 tanks at other posts, [ ] may indicate that the turning-in of T-34 tanks was resumed in August.

3. [ ] Comment. Large artillery units of the 94th Gds Mtz Rifle Div presumably transferred to Letzling Heath. The number of guns and the calibers mentioned do not always agree with the equipment assumed to be with the unit. [ ]

4. [ ] Comment. These were probably shipments of the 4th Gds Arty Brig. The 152-mm gun howitzers which, [ ] tend to indicate that elements of the brigade returned on 4 September.
